THE Cincinnati Commercial claims that smallpox has faded out in that city.

It is astonishing what an interest some papers in the State are beginning to take in the temperance cause. If they keep up this high moral impulse, they may be found supporting an out and out prohibition ticket before the election.

O'DONOVAN Rossa says that if his advice had been followed Liverpool would have been in flames the day Alexandria was fired. This, he no doubt considers, would redress the wrongs of Ireland, free the country from English rule and give him a chance to return. It is just such fanatics as Rossa that injure the Irish cause and name.

THREE steamships arrived at New York last Sunday with immigrants aboard. The Mosel, from Bremen, had 387; the Nemesis, from Amsterdam, 350; and the City of Berlin, from Liverpool, about 500. It is stated that immigration decreased during the month of June, but it has thus far in July largely exceeded the same month in 1881. It was expected that there would be a half million arrivals of immigrants this year, but the estimate falls below that number now.

THERE is considerable talk about a holy war in the East, and the Mohammedans again menacing the gates of Vienna and the walls of Grenada in Spain. But as there are about seventy three millions of Mohammedans, and has been a great improvement in Europe in the implements of warfare since the last grand raid, there is no immediate danger. Besides there are sixty American marines on duty at Alexandria who can hold any ordinary holy war down, without reinforcements even from our valiant navy.

SOME of the healthiest looking people in Memphis, or in the country anywhere, adults and children, are those who remain in Memphis all the year round. This is a good summer resort for most of us. When the average Memphian goes to East Tennessee or the Virginia or North western resorts, people stare at him or her and inquire: "Well, what did you come here for, any how?" The proper reply would be: "To spend money and appear fashionable." It is estimated that less than one thousand people have left Memphis this summer for supposed health or pleasure.

THE election comes off on Thursday, the 3d of August, two weeks from to-morrow. Seven county officers are to be elected, all the Magistrates in the county, and besides this the people will be called upon to vote for or against a constitutional convention. This will really be a very important election, such as can only occur once in six or more years. It is to be hoped, at least, that there will be a very full vote, to the end that the will of the people may be emphasized and fully expressed. We believe that the public good will be best subserved by the election of the Democratic ticket throughout. There has been something of a coalition to defeat it, which will only stimulate Democrats to greater effort and unanimity. The ticket deserves to be elected, and we believe, from present indications, that it will be.

MANY of those who oppose Pat Winters for County Clerk have sought and received favors at his hands. The outcry raised against him may not amount to much, but it is senseless and unjust what there is of it. Pat Winters has been a faithful public servant and stood by the disfranchised classes when they could not help themselves. He has given freely of his means to aid the needy and promote various benevolent and charitable institutions. He has not been a candidate for an office of any profit for several years. No one can say that he ever defrauded the public or a private individual out of a cent. He has a clean record, and if he has swung out of line a little in a political sense, he has not been without company. He is a people's man in the broadest sense, and is more likely to run ahead of his ticket than fall behind it.

**Lined With Carriages and Dead Horses.**

**A Great Fire Raging at Smyrna.**

**Singular Action of the Khedive.**

LONDON, July 19.—The reserve squadron are ordered to return to their stations.

The statement that the arrears bill had passed through the House of Commons Monday night was an error. The House yesterday disposed of all original clauses to the bill. A new technical clause was then added, and on motion of Gladstone progress was reported.

ALEXANDRIA, July 19.—A telegram from the Porte for Dervish Pasha arrived shortly after he left here for Constantinople. Admiral Seymour sent after him, and he is now returning.

No Europeans remain in Cairo, except twenty Germans, who refuse to leave.

The Consul who was killed at Zagazig was the Italian Consul.

BERLIN, July 19.—The Cologne Gazette and Berlin North German Gazette print articles on the Egyptian question which are regarded as being directly inspired, and as representing not only the policy of Germany but of the other powers, except England and France. These articles state that the Egyptian question will only be ripe for Germany after the western powers have come to a mutual understanding to apply for the assent of Europe. In view of the general need of peace, England may rely upon support on all sides in her endeavor to bring about a settlement of the question, especially if she strictly adheres to the role of defender of her just interests.

LONDON, July 19.—A correspondent of the Telegraph, at Alexandria, says: "I drove, yesterday, nine miles along the line of Arabi Pasha's retreat and passed several villages, the people in which are starving. The soldiers robbed them of everything. The entire route is lined with carriages and dead horses. It is reported that Bedouins harassed the soldiers during their retreat, killing two hundred."

LONDON, July 19.—In the House of Commons, this afternoon, the Financial Secretary of the War Office said that efficient precautions had been taken to protect Port Said, Ismailia and Suez, but he could not enter into details.

Sir Charles Dilke, Under Foreign Secretary, said the identical note of the powers to the Porte, regarding the dispatch of Turkish troops to Egypt, was still unanswered.

A dispatch from Smyrna says: A great fire is raging here, and many hundred houses have been destroyed.

ALEXANDRIA, July 19.—The conduct of the Khedive causes much surprise. He has for the last few days allowed several persons to be at the palace who are well known to have been intimately connected with Arabi Pasha. The Khedive apparently trusts them, but it may be that he is endeavoring to get them thoroughly in his power.

WATERFORD, IRELAND, July 19.—A railway van, containing a large number of military rifles and a quantity of ammunition, was broken into here, and the rifles and cartridges were stolen.

**New York Greenback Nomination.**  
ALBANY, July 19.—The National Greenback Labor State Convention nominated Ephraim Howe for Governor.

Wheat fell per cent lower, with unsettled, somewhat excited and active speculative trading.

A COOL TRIBUTE

**To the Memory of Mrs. Abraham Lincoln.**

CHICAGO, July 19.—A Springfield (Ill.) special says: The officers of the executive and judicial departments of the State have adopted the following: WHEREAS, Mrs. Mary Lincoln is dead, a woman who owned the name and love of one of the most distinguished citizens of our State, shared with him the highest honors that can be conferred by the people of this country, and has a wife's part in one of the noblest names in history; and Whereas, As in life she participated in the distinguished honors conferred upon her noble husband, so in death she will be with him in peace, marked with a nation's admiration and a people's gratitude; and Whereas, During the many years since her cruel bereavement her life has been one of continued suffering and trials, and the sympathy of the American people has gone out to her from their inmost hearts; therefore be it

RESOLVED, That as a mark of our regard for her memory, and in esteem for her womanly virtues, offer this tribute of respect, and extend to her distinguished son, Robert T. Lincoln, and other surviving relations, the full measure of our sympathy in their sad bereavement.

Resolved, That we close our respective offices and attend the funeral in a body.

Forest Fires.

CHICAGO, July 19.—An East Tawas Michigan, special says: Heavy forest fires are raging between here and Ashtabula. Considerable damage to pine and cedar has resulted.

An East Atchison, Kansas, special says: A fire yesterday burned the elevator of H. C. Goodell. Loss, \$10,000; insurance, \$4000.

A Mexican Victory in American Politics.

CHICAGO, July 19.—A Las Vegas, New Mexico, special says: In the much talked of Mayoralty election, the Mexicans elected Romero by 200 majority. The whole territory and Colorado evinced much interest in the struggle, and the Americans are much grieved at the result.

Three Persons Drowned.

CHICAGO, July 19.—A special from Houghton, Michigan, says: A party of three women and four men were riding on the Portage river yesterday, when their boat turned over, drowning two women and one man. Their names were M. E. Ross and wife and Mrs. Joseph Blanchett. Indians saved the others.

Independent Greenback Candidate.

CHICAGO, July 19.—A Des Moines special says: L. H. Weller, Greenbacker, is out as an independent candidate in the Fourth Iowa Congressional District.

Fitz John Porter Forever.

WASHINGTON, July 19.—Senator Sewell this morning presented a communication from Brevet Major General McQuade, transmitting a resolution adopted unanimously at the recent annual meeting of the Society of the Fifth Army Corps, Detroit, asking that justice be done General Fitz John Porter. Sewell gave notice that he would call up the bill for General Porter's relief on the first Monday in December next.

Collision of Steamers.

NEW YORK, July 19.—The Halifax Line steamer Alhambra, this morning, ran into the Providence and Stonington steamer Rhode Island off Stratford, Conn. The Rhode Island was badly injured, and had to be taken in tow by the Fall River boat Providence. No one hurt.

RAILROAD STOCKS.

**Advance in Chesapeake & Ohio Railroad Securities.**

**By Reason of the Extension to Memphis.**

**A German Syndicate—Western Roads.**

NEW YORK, July 19.—The foreign buying of American stocks and bonds was heavy yesterday. The investment and speculative buying of Chesapeake & Ohio securities was also very large. The improvements which have been made in the property during the year have not been reflected in the securities, as the management has not desired any speculative boom. The completion of the Big Sandy extension, the opening of the Chesapeake, Ohio & Southwestern to Memphis, the extensive terminal facilities at Newport News, the steamship lines from that point, and the increase in facilities to handle a large business, have heavily increased the receipts. The extension of the Scioto-Valley road to Fort Wayne will also add to the Chesapeake & Ohio business.

Insiders think the time has arrived for an advance, and parties in position to know the facts say that the German Syndicate, which has lately bought a large amount in Northern Pacific and St. Paul, has also bought New York, Chicago & St. Louis stocks, for the purpose of securing an independent Eastern outlet. Western shippers have formed an independent freight line which will run six thousand cars over the New York, Chicago & St. Louis road and one of the roads east of Buffalo.

There is a strong buying of St. Louis & San Francisco here and in Boston. Its earnings are increasing, and insiders are bullish. Its preferred stock is expected to earn a dividend this year, and the common, within two years. Its Texas extension, now being rapidly pushed, is expected to add largely to its earnings.

Practical Estheticism.

NEW YORK HERALD.  
Mr. Oscar Wilde has at last demanded a development of estheticism which is entirely within the comprehension and in accordance with the yearnings of every family in the Union. He says that woman's dress should be made in the simple style of former days, when garments descended from mother to daughter. Americans who are married, and particularly those who have families of adult daughters will simply glaze over this statement and strive to enter the inner brotherhood without delay; they will be willing to wear knee breeches and cease cutting their hair; they will cheerfully wear sunflowers as boutonnieres, assume stained glass attitudes and even stroll up the avenue with a poppy or a lily in their mediæval hands if only the æsthetic rage will move women to dress simply and wear such garments as may be handed down to them in good condition. While the fashions are as they are, man, without regard to age, income or social position, is bound to slave his life away for the purpose of attiring woman in robes more costly than queens were until the present century. If woman's dress were not so costly there would be fewer walls bare of pictures; many families now illiterate, though fashionable, could afford to buy and read all the new books, and children could be carefully educated instead of being compelled to take their chances at the public schools. But all this is too delightful to hope for; besides, women have but little to say as to how they shall be dressed, the dressmakers attend to that part of the business, and whenever woman attempts to rebel against these she finds that peace can be attained only by unconditional surrender.

CAMPAIGN NOTES.

**The Utter Hollowness of the Bolters' Movement.**

Nashville Special to Courier-Journal.  
Frank McGavock, of the Bolters' State Committee, also, I learn, declines to serve, making two declinations with that of R. B. Lee, reported yesterday.

Letters to one of the Bate men, just received here, from prominent Democrats, report that there are in Lincoln county but fifty bolting Democrats, and not so many in Smith and Wilson; in Clay county, two; in Trousdale, one; in Gibson, eight; in Haywood, five or six. They report that in Sumner Bate will get twenty votes to one for Fussell. A responsible gentleman writes from Clarksville that Fussell will not get 300 votes in Montgomery county, the headquarters of the kickers. It is also written that Fussell's own county (Maury) will give five votes for Bate to one for the bolter. Major Williamson, of Columbia, here to-night, says that as a Christian gentleman no one should say a word against Fussell. But his friends think he has made a great mistake; that he has been deceived with the impression held out that to accept the nomination would be the making of him, that in fact he could poll near 40,000 Republican votes. The Major thinks if the election was held to-morrow, he (Fussell) would poll only 500 votes in his own county, which is one in nine of 4500 Democratic votes. Delay until November may give him about 600, as his manhood and popularity are great. It is evident that Duncan B. Cooper led his young friend to this slaughter in order that through Fussell's influence Mr. Cooper may hereafter subvert his own ambition by flattery Mr. Fussell with the present bolter nomination.

O'Donovan Rossa's Buncombe.

NEW YORK HERALD.  
The Fenians took decisive action on the Egyptian question yesterday. A council was held at the corner of Center and Chambers streets which lasted from two till four o'clock.

"We have no secrets to impart," said O'Donovan Rossa to a Herald reporter at the close of the council. "We shall pursue a line of action which was marked out two years ago. Had my advice been followed Liverpool would have been in flames on the same day that Alexandria was fired. Our people are being decimated and the European powers are concerned only by the sufferings of the foreigners in Egypt. The time has then come when we can carry the war as the perfidious Saxon is doing now—into Africa. If the men now on their way reach there before another truce is concluded not an English vessel will escape. We blew up three of their ironclads on the Danube during the Russo-Turkish war, and we have now impressed men into the service that will attend to the Suez canal."

"Don't you think you are divulging too much?" said the reporter. "Not at all," was the reply, "for if the British Consul sends out one of his detectives to ascertain our plans, he must be pitied. They are all watched very closely. Look at these letters that I have just received from Ireland, and they will make your blood boil in your veins."

"But," interrupted the reporter, "I have not come to discuss that subject. Will you tell me what action you propose to take on the Egyptian question?"

"We have already taken action, and the Herald will publish the result within two weeks," was the reply.
